Adding Paul White to this list due to the interest he expressed during today's PKWG meeting.

Ex. 5 Deliberative Process (DP)

Paul W., let us know what sections you plan to review following the timelines noted below.

Thanks,
Eva

Subject: PKWG Formaldehyde Review Team

Formaldehyde Review Team –

Thanks for agreeing to assist with the quick review of the formaldehyde assessment. We have compiled a list of the sections and reviewers (see attached) as we understand it. We are aiming for at least 2 reviewers per section, but assigned 3 to the modeling sections due to existing leave schedules. With the short turn around requested by the formaldehyde team, please see the schedule below:

July 18 – PKWG meeting for FA team to discuss any concerns to date
July 22 – comments due to Paul, Eva, & Jim
July 24 – co-chairs will contact reviewers if any concerns about comments
July 25 – meet with formaldehyde authors (regular PKWG meeting time) to discuss comments

Also, from the IRIS meeting on Wednesday here are a few reminders about the scope of the review:

- We should identify any major problems and suggest how to address them
- Minor problems can be identified, but the FA team might not have time to deal with them
- You may make comment bubbles in the document as you review, but be prepared to discuss <5 major issues with the group if identified.

Looking forward to working with you on this review. Let me know if you have any questions.

Best regards,

Eva
